

HiMama

Your daily communication

What is HiMama?

- Easily capture and share your child's development so you'll never forget. From fun pictures and stories to developmental milestones. Communicate directly with the nursery and your child's teacher. With our school parent app, you will receive updates about your child directly to your phone.
- With HiMama you will never miss a moment.
- **Show off your pictures with an automatic journal you can view anytime, anywhere.**
- All of your child's memories and moments will be beautifully organized in a digital journal. You can manage all of the activities in HiMama on the web or share them with friends and family on the go with our mobile apps on iPhone and Android.

LOGGING IN

My child care provider just added me, what do I do next?

Once your daycare adds you on HiMama, you'll receive a *Welcome email* from us with instructions to create your HiMama account. If you've already received a Welcome email, click the link in the email to set up your login!

Missing your Welcome email? Do the following:

Check your inbox for an email from HiMama. (Don't forget to check your spam/junk folder!)

Can't find your Welcome email? Go to this site - https://www.himama.com/parents/request_invite, select option one "I am already receiving emails and/or childcare reports from HiMama". We'll send you a new invitation!

Not in our system? Contact admin and verify that they've entered the correct email without typos.

Where is data stored and is it secure?

HiMama data is stored on Amazon Web Services (AWS) cloud infrastructure. It is one of the most secure cloud computing environments available with highly secure data centers utilizing state-of the art electronic surveillance and access control systems, including 24x7 trained security guard protection. It is suited to run sensitive government applications and is used by over 300 U.S. government agencies, as well as the Navy, Treasury and NASA.

Who has access to my data and is it private?

HiMama takes privacy very seriously. All photos and videos of your child are posted only to your account and no one else can access this information without express consent being provided by you. All account passwords are encrypted for additional security.

What will I be getting out of this application?

Addison's Report

Tuesday, Aug 1, 2017

Naps

2:30pm - 2:50pm (0h20m)

Mood

Somewhat excited.
This morning Addison was very excited to show off her new pencil case to the other children!

Meals

Breakfast - Most - Sandwich and Juice
Lunch - Most - Hamburgers and Juice

It's Lunch Time!

Activities

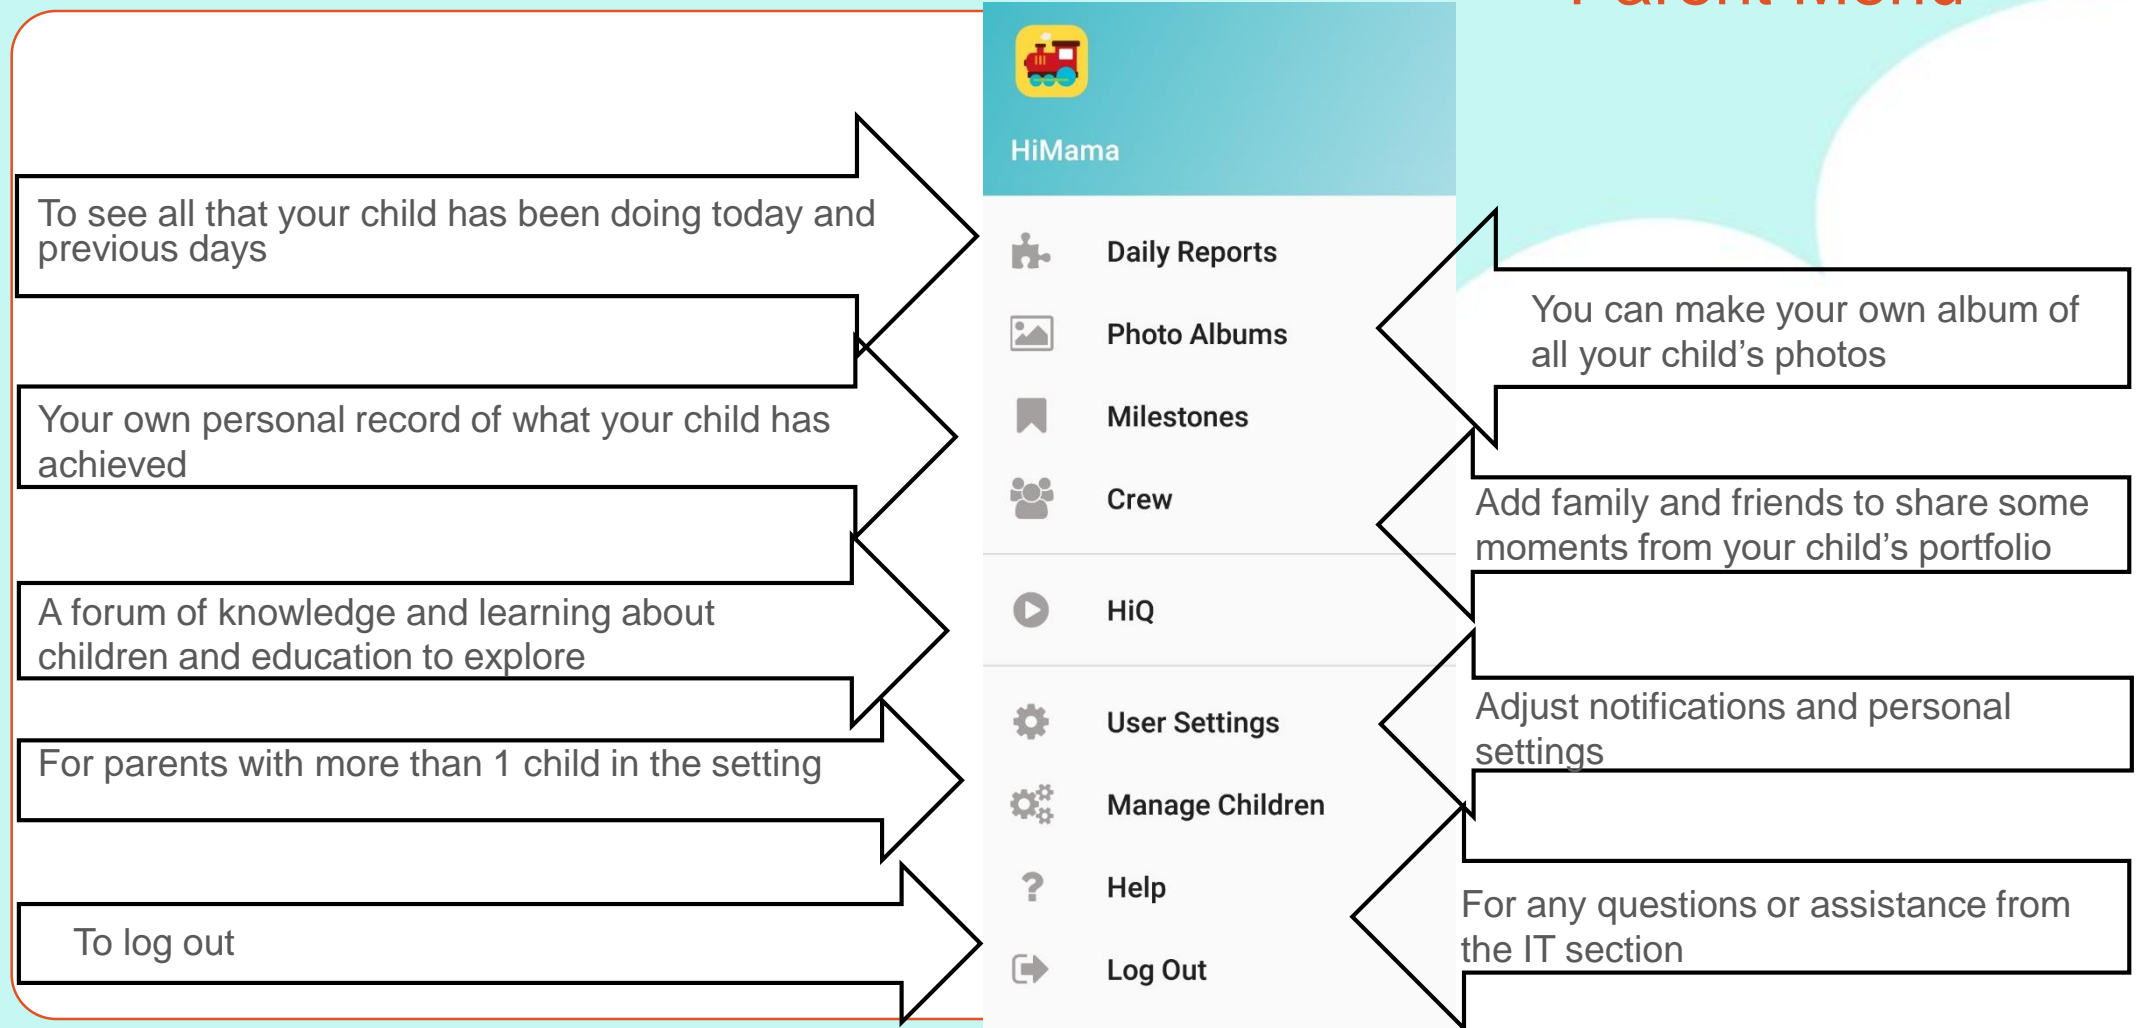

Observation
Having tons of fun in the park today!

Settings

Mobile app interface showing Email Preferences settings. The app has a teal header with icons for menu, home, gallery, calendar, and email. The status bar at the top shows notification icons, connectivity icons, 64% battery, and 11:15. The settings page has a title 'Email Preferences' with an envelope icon. It includes fields for 'Email Address' and 'Retype Email', both containing 'sistitchener@hotmail.com'. A checkbox 'Send me fewer emails' is checked. Below it is an information icon and text: 'Checking this option means that report and real-time photo/video emails will be withheld. (Parent/guardians will still receive emails of classroom notices.) **Recommended if you already receive notifications via the HiMama app.**' At the bottom is an 'Email Language' dropdown menu set to 'English' and a green circular button with a white plus sign.

Developmental Skill

Seeing some significant progress in Marky's co-ordination and balancing. He put it all on display today in the playground!

Little monkey

Age Range: Toddler

Domain: Physical

Skill: 5.1 Gross Motor

Indicators: Balancing and coordination increase; climbing on climbing equipment and furniture

Developmental milestones and growth

This will be in your child's portfolio and will show all the lessons and developmental steps that he/she is learning

We will be starting this very soon

Privacy

- **Who can see my photos and videos?**
- Photos and videos you add to the Journal are visible only to your child's Crew. If you mark an activity as 'Private', only those members of the Crew that you have given privileges to will be able to see these activities. They are identified on the Journal with a lock icon. The center cannot see what you have added, this is for your personal use only
- We take privacy seriously and will never share any photos or make them public without your explicit consent.

Who can see entries when I make them public?

- When you mark an entry as "public", that makes it available for your all of your child's Crew members to view. As opposed to private activities, which can only be viewed by Crew members with private access.

Troubleshooting

I can't log into my account.

- If at any point you're unable to log into your account, go here to reset your password: <https://www.himama.com/users/password/new>»

How do I change the email address that I get updates to from my child's daycare provider?

- Log into HiMama using your existing email. In the top right corner, select your name to access the drop-down menu, then select 'My Settings' to enter and confirm your preferred email address.

USING THE APP - Available on app Help section

What app should I be using?

Head to your device's app store and search for "HiMama - The Childcare App. Then log in with your email and password!

How can I send my child care provider a message?

Open up your HiMama app and look for the *envelope* icon.

Can I add to my child's journal without sharing with my daycare?

Yes! When in the app, simply select the *plus icon*. Choose if you'd like to share with Crew (more on Crew below) by unchecking "Private".

Why can't I see nap and meal information in real time like I can with other updates?

- We usually hide sleep and food information until the report is finalized at the end of the day. These updates can contain sensitive information, and this provides an opportunity for the teachers to confirm they haven't entered any inaccurate information to parents. If you'd like access to real-time naps and meals data, please discuss your preference for seeing this information in real-time with us.

What does it mean when the day's report says it's "not finalized"?

- While the daily report is a work in progress, teachers have the ability to edit the report's contents as needed to best reflect what's going on throughout the day. This means that until the end of the school day, once the teacher has a chance to fully review the reports, report information is subject to change and therefore not finalized.

How do I download my child's photos from HiMama?

- **ANDROID & iOS APPS**

- From the photo journal, tap on an image to expand it. Tap the "Download" button.

- **WEB PORTAL**

- After logging in, head to the "Entries" list for your child (from a child's photo journal, select the list icon in the top-left). Once on that page, you'll see a download icon () next to each photo. Selecting this icon will start an image download, or open the photo for you to save manually (right click and select "Save as...").
- *Please note; you cannot currently download more than one photo at a time.*

How do I download videos from HiMama?

- **WEB PORTAL ONLY**
- Within the web portal you can download the video in two ways: (1) From the journal, press to play the video. Tap on the three-dot menu icon and you should see the option to "Download". (2) After logging in, head to the "Entries" list for your child (from a child's photo journal, select the list icon in the top-left). Once on that page, you'll see a download icon () next to each photo. Selecting this icon will start an image download, or open the photo for you to save manually (right click and select "Save as...").
- *We are currently working on the ability to download videos within the iOS app. Hang tight!*

What's the "Crew"?

- The Crew is the close group of friends and family that you want to share updates with. This might include grandparents, aunts and uncles, or close friends, and might include those that aren't living close enough to see your child as much as they'd like.

Sharing with family - Crew

- **Instantly share your updates or keep them private.**
- Maybe you want to share a fun update with all your friends and family, or maybe you want to record notes from a private doctor's appointment for only you and your spouse. You choose the access that family and friends will receive. New content defaults to private so no need to hold back!

How do I add or remove people from the Crew?

- Open the app and head to the Crew page. Start adding! Each person you add will automatically receive an email from us inviting them to join HiMama and participate in activity sharing of your child.
- To remove a Crew member, simply select Edit for the member, check the "Remove User" box at the bottom of the page and hit submit.

Do I have to share everything with the Crew?

- Nope. Some moments just aren't meant to be shared with everyone. Maybe you want to keep a very special moment just between you and your spouse, or maybe you want to keep a log of your child's medical-related activities. Just mark these as 'Private' and only Crew Members with special privileges that you set will be allowed to see these.

Who can add and remove people from the Crew?

- Only Administrators can add family and friends to a child's Crew. If you want to know who's an Administrator of your child's account, visit their Crew page.

What does it mean when I make an activity "Private"?

- When an activity is marked as "Private" only those members of the Crew that you have given "Access Level: All photos" to will be able to see these activities by default. They will be identified on your child's Journal with a lock icon.

- How do I get an answer to a question that's not in this presentation?
- Good question!
- Just email support@himama.com.

Thank you!
