

Little Rainbow Nursery

Curriculum Development

At Little Rainbow nursery we encourage all children attending the nursery to attain their maximum potential within their perceived capabilities. An individual record of each child's development is maintained, showing their abilities and celebrations of each individual achievement.

The staff team is well qualified and very aware of the importance of the correct play environment for the child. So they may develop good social skills and an appreciation of all aspects of this country's multi-cultural society. Planning of the learning experiences by the staff is further designed to ensure equality of opportunity between all children.

We promote the relevant frameworks and curriculum's set by the DFE to support and enhance children's learning and development holistically. We develop tailor made curriculum experiences according to individual needs, which are based on observation to inform planning and draw on child's needs and interests.
