We are committed to creating an environment which our children are safe from abuse, ensuring each child's wellbeing takes precedence over any other consideration. It is all of our responsibility to adopt good practice throughout.

## Our Aims...

We seek to work in partnership with parents, carers and other agencies to promote good practice in safeguarding children. With guidance from 'London Child Protection Procedures' concerned with the 'staying safe outcome' of the Every Child Matters programme.

We aim to ensure that all staff have access to appropriate safeguarding training and have support in order to implement this policy effectively with minimum stress.

## STAFFING

Staff employed at Little Rainbow have all the appropriate qualifications, training, skills & knowledge for the post they are applying for. All staff are asked to provide references which are followed up.

They will also have enhanced DBS checks to ensure they are fit to have access to children. Enhanced DBS checks are conducted through an approved agency.

We have appointed safeguarded officers who provide guidance and support within our setting.
